

## Atlantic Bank Donates Fans to Schools and Non-Profit Organizations in Belize

Atlantic Bank is pleased to announce its latest community support initiative: the donation of fans to several non-profit organizations. This effort reflects the bank's ongoing commitment to fostering education, supporting the elderly, and improving community well-being.

To help combat the heat and ensure a more comfortable environment, Atlantic Bank has donated a total of 31 high-quality fans to five organizations including Excelsior High School, All Saints Primary School, HelpAge Belize City, HelpAge Belmopan, and Sister Cecilia Home for the Elderly.

At Atlantic Bank, we believe in the power of community and the importance of creating environments that promote comfort, learning and care. We are honoured to support these institutions that play such vital roles in shaping our society and proving care to our most vulnerable populations.

These donations aim to bring much needed relief during Belize's hot, humid months. By helping to create a cooler, more pleasant atmosphere, Atlantic bank hopes to enhance the well being of students in their classrooms and seniors in their caregiving facilities.

This initiative underscores the bank's broader mission to support education, health, and community development across the country. Through projects like this, the bank continues to demonstrate its dedication to making a positive difference in the lives of Belizeans.
