

# CUSTOMER NOTICE

Coming Soon: New Contactless ATMs

Dear Valued Customer,

Atlantic Bank is proud to announce a major milestone in banking innovation. As the first bank in Belize to introduce Contactless ATMs, we are redefining the way you access your money, making everyday banking faster, more convenient, and more secure than ever before.

These new ATMs will feature:

- Contactless (tap) transaction capability, allowing for faster transactions
- Traditional card insertion functionality with improved single-insertion
- A modern, user-friendly touchscreen interface

These ATMs provide efficient, quick, and seamless access to your accounts while maintaining the highest standards of safety and reliability.

We are rolling out the contactless ATMs at our branches and new locations countrywide. While the ATMs may not be available at every location just yet, customers can look forward to enjoying these features at more branches as the rollout continues throughout the year.

At Atlantic Bank, we remain committed to leading the future of banking in Belize through continuous investment in innovative, customer focused solutions that transform your everyday banking experience.

Thank you for choosing Atlantic Bank!
